

6-15-99

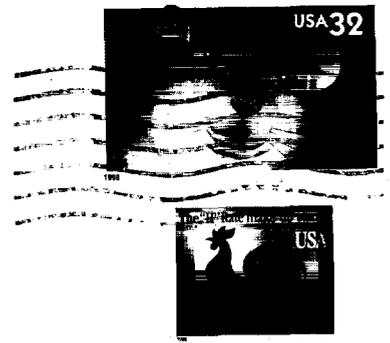

FDA,

I am writing to let the FDA know  
of my position on xenografts. I am very  
strongly opposed to xenografts for several  
reasons. The primary reason I am opposed  
to xenografts is that of animal rights &  
ethics: if animals are closely related enough  
to humans to even consider transplants, they  
have emotions & rights that must be  
acknowledged. If their neurologic, cardiovascular,  
endocrine & other systems match ours, which  
they clearly do, then we must expect that  
they have similar desires to live, avoid pain  
& experience a certain quality of life. Treating  
them as our captive organ farms is inhumane  
and unacceptable. These innocent animals
